Akrem GOMRI

Data scientist

Computer Engineer with a Master's in Artificial Intelligence, driven by curiosity, creativity, and a deep passion for data science.

gomriakrem1@gmail.com
Colombes (92700), île-de-France
Date of birth 13/04/1999

Profiles

https://akremgomri.github.io/
linkedin.com/in/akrem-gomri
github.com/AkremGomri
huggingface.co/AkremGomri

Technical Skills

Programming languages
Python, Scala

Data Processing & Visualization
Pandas, Numpy, Matplotlib.

Machine Learning & Deep Learning
Keras, TensorFlow, PyTorch, Scikit-learn

MLOps et Cloud
MLflow, Databricks

Software Engineering

- **Framework:** Node.js, React
- **Databases:** MongoDB, PostegreSQL, MySql, Oracle
- **Software Design & Architecture:** Architectural Patterns, Design Patterns

Languages

English
Expert Level

French
› TCF : 557/699

Compétences douces

- Ability to conduct in-depth research

- Analytical mindset and attention to detail

- Teamwork

- Autonomous and organized

Education

Master's in Artificial Intelligence and Cyber-Physical Systems (IA2S)
Since September 2023 Paris Est Créteil University (UPEC) Paris, France
https://shorturl.at/biuUY

Software Engineering Graduate (Computer Science Engineer)
From September 2020 to August 2023
Higher Institute of Applied Science and Technology Sousse, SS, Tunisia
https://issatso.rnu.tn/formation/type/ingenieurs

Work experience

Data Scientist
From September 2024 to March 2025
TotalEnergies Digital Factory 31 Rue des Jeuneurs

- **Development of a Predictive Solution to Anticipate Stuck Pipe Risks** *(a critical challenge for safety and profitability in oil drilling operations)*
  Key Contributions:
  - Designed a machine learning model to analyze real-time drilling data (RPM, torque, pressure) and predict stuck pipe incidents **2 hours in advance** with **92% accuracy**.
  - Reduced false alarms by **40%** through hybrid modeling (AI + domain expertise), enhancing operational trust.
  - Deployed as a **REST API** integrated with live dashboards for offshore teams.

  For more details, visit: DrillX Project Page

Data scientist
From February 2023 to June 2023 Sopra HR Les Berges du Lac, Tunis, Tunisia
Company link: https://www.soprahr.com/

Data Scientist
From July 2022 to August 2022 Sama Consulting EZZAHRA, Tunis, Tunisia
Company link : https://sama-consulting.com/

Projects

Human Activity Recognition using Video Classification
From November 2023 to February 2024
Computer vision, CNN, LSTM, Pose detection

Human Activity Recognition Using Wearable Sensors
From October 2023 to December 2023
Computer vision, Temporal series, SVM

Certifications et Développement Professionnel

IBM Professional Certificate in AI Engineering
From May 2023 to November 2023
MUST university. 30 Rue Platon, Le Kram 2060, Tunis, Tunisia
Certifications : https://www.linkedin.com/in/akrem-gomri/details/certifications/

Specialization in AI Engineering
From May 2023 to November 2023 MUST University Tunis, Tunisia

Certificate of Achievement in Artificial Intelligence
From June 2020 to August 2020 GoMyCode Lac 1, Tunisia
